// 9-NODE CORE — CENTRAL NERVOUS SYSTEM FOR SPORT

↳ FORGED IRON / EMERALD ACTIVE

Six Chapters. One Core.

The infrastructure standard for the sport & wellbeing industry. This book defines how ARTRON looks, sounds, and behaves — in pixels, in print, and in physical space.

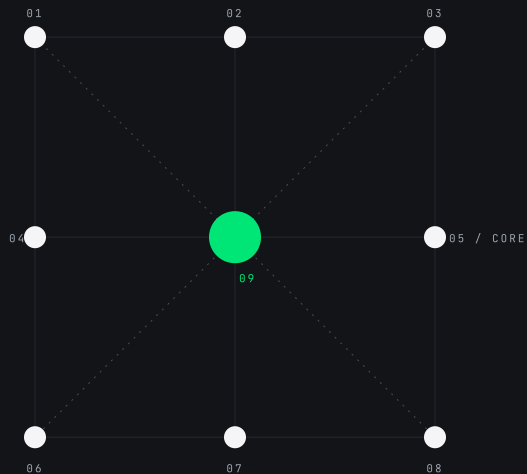

01	The Brand Soul	P. 03-05
02	Visual Identity	P. 06-10
03	UI / UX Rules	P. 11-14
04	Tone of Voice & Microcopy	P. 15-16
05	Physical World Touchpoints	P. 17-19
06	Brand Architecture	P. 20-22

The Brand Soul.

Why ARTRON exists — and why it never tells anyone how to train. The neutral, disciplined infrastructure beneath the entire sport & wellbeing industry.

The 9-Node Core.

= SCALABILITY · ULTIMATE COMPLETION

Nine is the number of ultimate completion. Eight independent nodes — clubs, trainers, athletes, payments, data, devices, schedule, content — orbit one central, disciplined core.

ARTRON is that core. It does not occupy a node; it **is the medium** through which every node communicates. Remove the core and the industry returns to noise.

SELF-ORGANIZATION

01

SELF-HEALING

02

SELF-EVOLUTION

03

Ally to all. Friend to none.

ARTRON does not dictate how to train. It provides the flawless infrastructure that makes training, managing, and measuring perfect — for every actor in the industry.

The brand looks the same from every angle: to the club owner it is operations; to the trainer it is craft; to the athlete it is progress. Neutrality is not a posture — it is the product.

WE DO

- Provide infrastructure
- Synchronize signals
- Set the standard of service
- Stay invisible when not needed

WE DON'T

- Dictate training method
- Take sides between actors
- Use motivational language
- Decorate or perform

- Data slides use JetBrains Mono — bold one figure only.
- 9-grid background allowed at ≤ 20% opacity only.

Brand Architecture.

The Core stays Core. Sub-brands inherit geometry and earn one elemental color. Never a new logo, never a new font, never a new tone.

One core. N expansions.

MARK · WORDMARK · DISCIPLINE MARKER · ACCENT

ARTRON Pay

PREMIUM · GOLD CORE · TRANSACTIONS

ARTRON Medical

VITAL · LAVA CORE · PHYSIOLOGY

ARTRON Analytics

TRUTH · EMERALD CORE · DATA

ARTRON Academy

CRAFT · COPPER CORE · TRAINER EDUCATION

INHERITANCE CONTRACT

1. The 9-node mark is invariant. Always.
2. The core node takes the sub-brand's elemental color.
3. Wordmark = "ARTRON" + descriptor. Descriptor is one word, Outfit 400, Silver.
4. No new typefaces. No new icons. No new tone.
5. Sub-brand may use only its own accent + Iron + Bone. Never two element colors.

NAMING

Always English. Always one word after "ARTRON". Avoid suffixes (-ly, -ify), abstractions, or invented words. The descriptor must name the function, not the feeling.

✓ PAY · MEDICAL · ANALYTICS

✗ FLOW · SPARKLE · MATE

FUTURE-PROOFING

Up to nine concurrent sub-brands. The tenth is a sign the architecture has decayed — split, retire, or absorb.

Reshape. Remake. Refresh.

V 1.0 · 2026.05

ARTRON is not a tool. It is the medium in which the sport & wellbeing industry organizes itself. This book is the contract between every node and the core.
